2017 RATES

Ghostwriting

Ghostwriters transform the author's thoughts into a commercial, literary product.

Ghostwriters collaborate with the author to bring their ideas to life in a tangible, well-thought out way. The author is involved, but the ghostwriter writes the book.

The average US cost for a professional ghostwriter is \$20,000-\$80,000 for a 200-300 page book.

The rates below are affordable and are based on length of work, sophistication of topic, target deadline, availability of author, how much research is required, etc.

Rates

Non-Fiction Books

Shorter Length

100-150 pages

\$10,000 to \$15,000

Full Length

200-300 pages

Collaborative project

Some Research (TBD)

Cover Design Concept

Marketing & Planning for Book Release

Rates

All rates are current as of October 2017. Custom options are available, so please let us know what you need.

All projects require an in-depth intake session (\$100 for one hour, which will be applied to your first invoice). Understanding your project and your needs are the best way to make the process go smoothly. Projects can take anywhere from 4-12 months to come to full fruition, so clarity is warranted at every intersection. If you have a project that requires a rush (less than four months), rush fees will be added and full payment is due upon contract submission.
